

Cognos Online Training Course Content

Faculty: Real time and certified

(Includes theoretical as well as practical sessions)

Introduction to Cognos 10.1

Query studio:

- Types of reports
- Query studio templates
- User interface
- Operation on list report
- Data formatting
- Expand and collapse group
- Custom groups
- Filters and calculations
- Conditional formatting

Report studio:

- Types of reports
- User interfaces
- Page structure and page view
- Operations on list
- Discontinuous cross tab
- Advances sorting and grouping
- Map reports and gauge chart
- Formatting the data
- Types Filters and calculations
- Prompts
- Tree prompt
- Cascading prompts
- Drill through
- Drill through on charts
- Drill up and drill down
- Bookmark
- Master – Detail relationship
- Re usability of queries
- Working with MDX functions

contact@smartmindonlinetraining.com

- Variables
- Conditional styles and formatting
- Conditional formatting with charts
- Render variable
- Conditional blocks
- Conditional layouts
- Layout component reference
- Bursting
- Dashboard reports
- Understating the reports from query explorer
- Understanding and exploring the tools in toolbox
- Performance tuning

Analysis studio:

- Introduction to analysis studio
- Types of analysis
- Rows columns and context
- Suppress zeros and nulls
- Filters and calculations
- Top and bottom rows
- Sorting
- Drill up and drill down
- Convert to chart
- Replacing columns and rows
- Open in report studio

Event studio:

- Benefits of event studio
- Process flow
- Specify event condition
- Tasks
- Task execution rules
- Agents
- Scheduling an agent

Frame work manager:

- User interface
- Project and model

Approaches for modeling
Data source connection
Importing the metadata
Objects in FM
Types of query subjects
Filters and calculations
Usage property and aggregate property
Relationship and cardinality
Packages
DMR approach
Regular and measure dimension
Scope relationships
OLAP sources
Security
Linking and segmentation
Transaction logging
Edit governors
Function sets
SQL types
Query processing types
Performance tuning of the model
Macros
Session parameters
Synchronization
Performance tuning

Cognos 10.1connections

Public folders / private folders
Directory tool
Schedule management
Content administration
My preferences
Name spaces
Security
Cognos EP 7, Cognos Reportnet
Cognos 8.1, Cognos 8.2, Cognos 8.3
Cognos Metric Studio, Cognos Transformer 8.3.
C. Drill through definitions

And all the adv topics will be covered. And we will provide certification support 100% you will get it.
