

## Load Runner Online Training Course Content

### **Faculty: Real time and certified**

(Includes theoretical as well as practical sessions)

- Load Runner
- Testing
- Volume Testing
- Performance Testing
- Load Testing
- Difference in types of Testing
  
- Planning
  
- Scheduling
  
- Coordinating a load Test
- Introduction of protocols in VuGen
  
- Setting VuGen environment
- Virtual generator
  
- Creating running & organizing scripts
- Parameterization in vuser scripts
  
- Need to parameterize data
  
- Creating parameters in vuser scripts
  
- Different techniques of parameterization
- Controller
  
- Logistics behind scenario's
  
- Components of controller, setting scenarios

## Load Runner Online Course - Smart Mind Online Training, Hyderabad

- Configuration load generator
- Creating a manual & goal oriented scenario
- Configuring manual scenario, assign Vusers
- Configure runtime settings
- Scheduling a scenario
- Setting up a scenario, adding vusers & assign groups to different load
- Generators
- Managing different options in controller
- Monitor scenario for performance monitors
- Vusers monitors
- Configure rendezvous points
- Stop a scenario and results configuration
- Using controller to conduct the load Test
- Analysis performance monitors to assess the load performance to detect bottlenecks in application
